

MoZaiC
ASSET MANAGEMENT

PRESS RELEASE

Paris, July 20, 2021.

MoZaiC Asset Management will be present at the Croisette during MIPIM September Edition!

September will mark the return of the MIPIM, the essential event where the international real estate and investment community will meet to discuss the market outlook and trends!

MoZaiC Asset Management will of course be present in the person of its founder, Frédéric DIB, who will be co-hosting a debate with Sophie BOISSARD, CEO of Korian, entitled "**What's hot in healthcare and nursing?**" and devoted to the essential adaptations that healthcare real estate asset managers will have to implement following the Covid-19 pandemic.

On September 7 and 8, 2021, real estate professionals will gather in Cannes for the MIPIM September Edition. This two-day event will mark the return of face-to-face meetings and will be the major economic and political event of the autumn. It will bring together the three main elements that make up the DNA of MIPIM: an exhibition area, a conference program and numerous networking opportunities.

This international event is the highlight of the year to meet investors and real estate prospects. It is the most important face-to-face event since the beginning of the Covid-19 pandemic. MIPIM September Edition aims to give a voice to those who are key players in this sector through their ideas, projects and perspectives that will structure the market of tomorrow.

For the 5th consecutive year, **MoZaiC Asset Management** will be present to promote its expertise in the management of healthcare real estate assets in Europe as well as its best practices in the acquisition and valuation of assets for operators and investors.

Frédéric DIB, Founder of **MoZaiC Asset Management**, will co-host a debate with **Sophie BOISSARD**, CEO of **Korian**, on September 7 from 3:45 to 4:45 p.m. on the theme of "**What's hot in healthcare and nursing?**", with the main topics below:

- Valuation of healthcare real estate assets
- Evolution of nursing homes post Covid-19
- Care for elderly people wishing to remain in their own homes
- New models of intergenerational cohabitation
